

OUR MISSION

To provide innovative modular solutions for the building requirements of Armed Forces, Emergency Management Agencies, governments, and companies around the world using rapidly deployable structures.

CORE CAPABILITIES

EBS provides a holistic, turn-key facility delivery service. This service includes:

- ✓ Design, engineering, and permitting.
- ✓ Procurement of the system that meets the needs of our client. We don't sell a single product, we deliver the right solution.
- ✓ Delivery and rapid installation using off-site fabrication and modular assembly.
- ✓ Short or long term leasing or redeployment to another location.
