

OUR MISSION

To provide innovative modular solutions for the building requirements of Armed Forces, Emergency Management Agencies, governments, and companies around the world using rapidly deployable structures.

CORE CAPABILITIES

EBS provides a holistic, turn-key facility delivery service. This service includes:

- ✓ Design, engineering, and permitting.
- ✓ Procurement of the system that meets the needs of our client. We don't sell a single product, we deliver the right solution.
- ✓ Delivery and rapid installation using off-site fabrication and modular assembly.
- ✓ Short or long term leasing or redeployment to another location.

SPECIAL SYSTEMS

PRODUCT DETAILS

UNLIMITED POSSIBILITY.

EBS combines manufacturing, installation, and logistics expertise to deliver thousands of facility configuration options. For any of our facility types, choose from an unlimited range of utility, security, comfort, functional, and finish possibilities.

BENEFITS

- ✓ Wide range of reliable product systems, including security and off grid upgrades.
- ✓ We don't rest until we outfit your facility with high-performing equipment that meets or exceeds requirements.
- ✓ EBS leverages staff with backgrounds in commercial building construction as well as manufacturing.

Clients Served

Plug and Play Electric EBS-PAPES1-A000	Power and low voltage systems based on facility need
Turnstile Access Systems EBS-TSAS01-A000	Turnkey Entrance and Exit tunstile systems Custom designed based on facility access security requirements
Access Control EBS-ACS001-A000	Fully integrated Access control systems designed and installed to comly with facilitiy security requirements
CCTV Systems EBS-CCTV01-A000	Indoor/ outdoor Closed Curcuit TV systems designed to meet all customers CCTV and security requirements
OPS DIRT EBS-OPSDRT-A000	Turnkey OPS DIRT for site rapid site development
Fire Sprinkler Systems EBS-FSS001-A000	Custom Designed Fire supression systems to meet all local and federal fire code for strucutres intended use
Fire Alarm Systems EBS-FAS001-A000	Integrated fire alarm system including initiating devices, notification systems, power supply, contol and display panels
Foam Fire Suppression Systems EBS-CFFSS1-A000	Stand alone containerized foam fire suppression system that can be deployed and relocated for any existing hangar and meets all avaiation foam suppression needs.
Pre-Cast Ballast and Stabalization Units EBS-PREFBS-A000	Off site manufactured, relocatable ballast, stabalization and foundation system designed and engineered for system requirements
Erosion Control Systems EBS-ECS001-A000	Designed and engineered erosion control systems to meet mission site requirements
Bridge Systems EBS-ENBS01-A000	Fully designed and engineered bridge systems for temporary and expeditionary use
ECU's EBS-ECUS01-A000	Turnkey Environmental control systems properly sized and installed to meet the mission and functionality of outfitted structure
Ventilation EBS-BVS001-A000	Ventilation system fully designed for customers structure meeting all intended use guidelines set forth by mission
HVLS Fans EBS-HVLSFS-A000	High volume, low speed fan systems to facilitate the movement of air throughout large span strucutres. Sized and installed per the strucutre requirements.
Generators Standard EBS-GENSET-A000	Multiple size generators, multiple fuel options to met the needs of the mission.
Generators (Skid Mounted) EBS-SMGS01-A000	Easy load and unload Skid mounted generators with fuel systems to allow for the rapid deployment and rapid storage of generator assets with a forklift from a 20' seacan
ECU's (Skid Mounted) EBS-SMECU1-A000	Easy Load and Unload ECU's sized for the space allocation. Easily deployed and Stored for multiple applications.
Pace Rapid Access Container System EBS-PRACS1-A000	20' Seacan with a fully extendable winch chain driven steel deck that can be utilized for the ease of access and ease of storage of all mission gear (icluding racking, generators, water containers)
World Wide Installtion Services EBS-WWIS01-A000	EBS has a full team ready to implement your solution wherever need arises throughout the world.
